Dear Parents:

One of the services provided in the schools is an audio(hearing) testing program. Good hearing is most important to successful living and it is especially important to successful school work.

Because hearing is so important, screening tests are given to students to determine whether or not the child has difficulties. As a result of a recent hearing screening, we believe that your child should have a complete hearing evaluation. An examination by family physician or an ear specialist is recommended. We urge you to give this your prompt attention.

If you have any questions, please call the school nurse at 482-2529. Please take this form with you when you go for the examination, and return it to the school nurse when it is completed. Thank You.
