AESTHETICS
A pleasing appearance will be an integral part of the design concept and not derived from spending big dollars on contrived design enhancements.

EFFICIENCY
Cost Savings for Greater Jasper Schools will be attained by achieving operational cost objectives such as Energy Star for heating and cooling and related operational cost savings through practical solutions.

SCHOOL FOR THE FUTURE
Create a flexible and agile facility that can be easily modified or re-arranged to respond to new teaching techniques and best practices. Anticipate potential future growth by planning for future classrooms and building additions.
