

AHERA Annual Notification

August 2018

Greater Jasper Consolidated Schools – Fifth Street Elementary School

Parents, Teachers, Staff and Students:

Fifth Street Elementary School has known asbestos containing materials. This building has possible floor tile and transite eaves materials in some areas. These materials are being maintained in a safe condition by our ongoing surveillance, reinspection, and operations and maintenance program. The ninth AHERA three-year re-inspection report dated June 5, 2018 stated no damage noted and can be reviewed upon request. There are no renovation projects scheduled for the 2018-2019 school year which could disturb the asbestos containing materials.

The Greater Jasper Consolidated Schools asbestos management plan is available for review upon request.

All inquiries regarding the asbestos management plan should be directed to:

Dr. Tracy Lorey, Superintendent

Greater Jasper Consolidated Schools
